A deep-dive on regulatory developments around sustainable finance, ESG and impact, co-organised in partnership with [Global Alliance of Impact Lawyers \(GAIL\)](#), [GSG](#), and [Cottino Social Impact Campus](#), with the support of [RPLT](#).

The EU's Sustainable Finance Disclosures Regulation (SFDR) and Corporate Sustainability Reporting Directive (CSRD) together comprise a perfect storm of regulatory changes, cutting a wide path through the impact community. This interactive pre-event at Impact Week aims to help impact actors and their legal representatives navigate these developments effectively, thanks to the latest expertise from the Global Alliance of Impact Lawyers (GAIL).

Following a cross-jurisdictional discussion, the session will focus on the practical effects on investors and the potential operational implications for companies and financial intermediaries. Together with the perspectives of the investing for impact community, we'll explore how the developing regulatory landscape is shaping impact today. Subsequent talks at Impact Week will also follow up on the conversation started in this session.
