

Programs internship opening

We are EVPA, the investing for impact community.

EVPA is a unique network at the intersection of finance and purpose, driven by knowledge and focused on impact. We aim to increase prosperity and social progress for all, fix inequalities and injustices and preserve the planet.

We rally people, capital, knowledge and data to catalyse, innovate and scale impact. EVPA brings together a diverse group of capital providers (impact funds, foundations, corporate social investors, banks, public funders) and social innovators of all sorts – from household names to emerging new players.

Smart Impact

We mix breakthrough research, eye-opening data, actionable learning and honest experience exchange to ignite innovation and build capacity to match ambitions, forge solutions, break barriers and bridge gaps for a bigger, deeper and smarter impact.

Joint Impact

We build synergies that tackle critical social and environmental problems at scale – and change mindsets. EVPA platforms facilitate thematic and sectoral collaboration but our ground- and silos-breaking convening ability is our true superpower.

Transformative Impact

Enable real and lasting change – that’s EVPA approach. We take on big issues, study and celebrate systems change, call for transformative regulatory frameworks and optimised public funding. As we guide newcomers to the impact space, we promote impact transparency and integrity.

Building a European Impact Ecosystem. Investors for impact power social and environmental impact to build a better world. At EVPA, we join forces to build an impact ecosystem! In 18 years we went from eight to 300 members strong and truly European network. We built THE data hub for the impact space, trained 1,000+ people, produced standard-setting and bar-raising guidelines on investing for impact and impact measurement and management. We established a strategic presence in the EU policy settings and play a vital role in global impact cooperation. Not bad for a teenager!
